

This compact abode comes enveloped in pre-finished metal cladding, ensuring a minimal upkeep for your 30m<sup>2</sup> construction and contributing to its long-lasting aesthetic appeal. The interior hosts a single bedroom, living area, kitchen, and bathroom, making it a flexible choice for use as a sleepout, Airbnb, or cabin. Two distinctive features of this design are the generously-sized wrap-around kitchen and the practicality of southern plumbing, which aligns the kitchen and bathroom. If your aim is to optimize your 30m<sup>2</sup> construction, this design serves as an excellent choice!

Floor Area: 30m<sup>2</sup>
